# Reward Points Account (Capability)

## 1. Role Definition ⌃

Track/log the allocation and remittance of rewards points. The service domain acts as a transaction log similar where the instrument is not subject to interest considerations (as with cash) but may have a finite life-time with expiry dates on reward points

## 2. Example of Use ⌃

Example of use:

A customer transaction that generates reward points is captured on the log, resulting in an increase in their available point balance

## 3. Executive Summary ⌃

Administer the booking and remittance of rewards points

# 4. Key Features

Capture reward points awards and remittance transactions

Process reward point expiry terms for limited life reward points
