Branch Location Operations (Capability)

1. Role Definition

Administer the day to day activity within the branch - allocating tellers and customer relationship managers to positions and tracking availability/performance, ensuring cash floats and product consumables are on hand and that all facilities are in working order

2. Example of Use

Example of use:

Branch staff administration assigns teller positions and relationship management tasks to the branch workforce based on ongoing demand

3. Executive Summary

The day to day administration of branch activity, including teller assignment and cash handling oversight

4. Key Features

Staff assignments

Cash and non-cash movements within the branch

Safe custody service operation
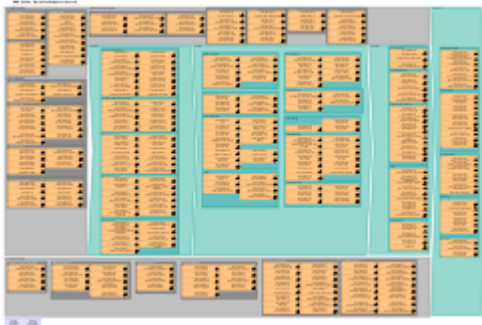

Location security operations
