Leasing Item Administration (Capability)

1. Role Definition ⌃

This service domain handles the oversight, administration and confirmation that any required maintenance tasks that are associated with a leased item that is the subject of a leasing agreement financed through the bank. This can include scheduled and ad-hoc item valuations, status/documentation and title checks and tracking upkeep actions that the item owner is obliged to undertake (such as obtaining certification and insurance)

2. Example of Use ⌃

Example of use:

The bank reviews the maintenance schedule for a major piece of equipment leased by a customer with bank financing to confirm that preventative maintenance has been undertaken as required and that the equipment is being used as intended

3. Executive Summary ⌃

Track the status of the assets underlying leasing agreements as they represent collateral items that could be accessed in the event of account recovery

4. Key Features ⌃

Record and classify leased items

Oversee/review leased item status and valuation checks

Confirm the maintenance, certification and insurance arrangements are in place
