Brokered Product (Capability)

1. Role Definition

Administer 3rd party coordination for the production delivery of 'brokered' products and services that are offered through the bank, possibly in combination with the bank's own product and service offerings

2. Example of Use

Access to a bank approved insurance broker is facilitated by a customer's relationship manager

3. Executive Summary

This Service Domain oversees all activities associated with the coordinated delivery of 3rd party products and services

4. Key Features ⌃

Monitor and assess production and service delivery quality

Oversee and assure 3rd party conformance with agreed service levels

Oversee the troubleshooting or production issues
